San Diego Woodturners' 1st Annual Mini-Symposium

The woodturning symposium season is upon us and many events are being held around the country to demonstrate the latest turning techniques, lathes and tools. Since all of these events require significant travel and lodging costs, as well as registration fees, we have decided to bring a symposium to San Diego.

If you are within driving distance (and even if you are not), you are invited to the San Diego Woodturners' First Annual Mini-Symposium to be held on July 21 from 9 AM to around 4 PM. The event will take place at the San Diego Woodturning Centre. Directions can be found on their website at <http://www.sdwoodturning.com/>. This event is a function of the San Diego Chapter of the American Association of Woodturners (AAW). The symposium is free to all participants.

This event is a great opportunity for all our members to learn from each other. For those less experienced, this is a great chance to pick up a lot of information about all kinds of turning topics. If you have not tried one of the demonstrated techniques, now is your opportunity to see for yourself how it is done. See Ed Zbik demystify segmented turning. Learn how to size up that really ugly lump of wood at the bottom of your firewood pile from Oskar Kirsten.

For those more experienced, come learn the tricks that your fellow turners use. How does Mike Lonnecker make those threads so perfect every time? How does Owens get five bowls from the same blank that I can only get three?

The Raffle is Back!!

It has been a couple of months since our last regular raffle. As you know, we had a special raffle to raise money for the education fund at the club's picnic in May. We have about 18 turned items donated by members for the event. We raised about \$700.00 for the fund and several people went away with some very nice pieces. Great thanks goes to Nan Bushley for getting several people that could not be in attendance to buy tickets anyway. She showed up with over \$200.00 from six individuals. Those people did not go unrewarded. Nan took home five of the items on their behalf. Thanks also to all the contributors. There were some very nice pieces available.

Our last general raffle was at the April meeting. At that time, I promised a dust collector and that is what we have for the July mini-symposium. We have a JET DC 650 1.0 hp dust collector from Juniors Tools, a thread-chasing video from the master – Allan Batty, and an autographed book from Dave Regester. We also held back a little of that maple burl that we purchased a couple of months ago, so we have a nice piece of maple burl, as well as a couple of other items.

Note From Our President

Don Owen wants to express his thanks to all of the Club members that worked so hard to make the Del Mar Fair such a success. Thanks to all the people that submitted pieces for display at the fair, to Chuck Luebbers and all those people that helped organize the San Diego Woodturners participation at the fair and finally to all those members that worked our booth at the fair.

Librarian Notice

Remember we are still trying to build our video and book library and we need your help and donations.

Tax exempt donation forms are available.

Instant Gallery is starting out a new season so plan to participate. You can win ribbons, praise from your fellow club members and pick up a little money for your efforts.

Provo Symposium

About twenty of our members made the trip to Provo this year and had a great time plus learned something about new turning techniques.

Mike Mahoney through a great party for all of our club members plus many of the demonstrators at the symposium.

We all got the opportunity to meet Allen Batty, Richard Raffan Guilio Marcolongo, Dick Sing and many others.

For all of you new members we urge you to contact the mentors on the right hand side of this page and seek their help.

The purpose of the mentor program is to provide help to members that are having a problem with some phase of the woodturning hobby. Try this people out and I am sure that you will find them very willing to help you solve your problem.

If you do not participate in this program you are only cheating yourself. No question is a dumb question because we all had to start out at the same point.
